

# Molecule 'X'®

Advanced Naturopathic Medicine  
All Natural Health Elixir's

**Evidence Based & Clinically Proven Dietary Supplement**

**A Plant Based Micelle Nano Particle Molecule Infused with Specific Zeta Enhanced Aqueous Solutions to Effectuate Human Life Forms for the Purpose of Achieving Optimum Health and Longevity. - © 2015 by Dr. James Chappell**

### Supplement Facts:

**Serving Size :** 1/4 teaspoon

**Servings per bottle:** 96 (32 day supply)

**Dose:** Adults take 1/4 teaspoon mixed in eight ounces of distilled water or juice, three times per day.

### Optimum Health & Longevity Formula (MX500)

This formula was created specifically to address, help support and normalize general systems of the body to increase optimum health and longevity. Flavored from organic, dried cinnamon extract. (list of ingredients on page 5)

### Liver & Pancreas Formula (MX600)

This formula was created specifically to help open and cleanse the liver. Flush and clear the gall bladder and help stimulate slow and sluggish livers. It is restorative, cleansing and fast acting. This formula contains all the ingredients in the Original (MX500) plus the following organic herbal additions: Milk thistle, dandelion root, Oregon grape root, artichoke leaf, ginger, beet leaf and fennel seed.

### Anti-Parasitic Formula (MX700)

This formula was created specifically to help eliminate all types of parasites. Helps restore energy and fight fatigue. Helps with depression caused by parasitic infections. Helps relieve gas, bloating, cramping and itching. This formula contains all the ingredients in the Original (MX500) plus the following organic herbal additions: Wormwood seeds, black walnut bark, garlic, sage, cloves, cayenne, mullein flower, gentian flower and cramp bark.

Molecule 'X'

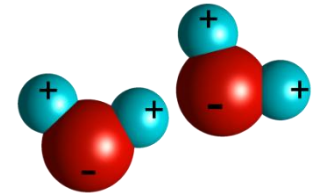

Disclaimer – James Chappell is a retired board certified chiropractic physician, board certified traditional naturopath, clinic nutritionist and medical herbalist. Since 1971, he has been a health researcher and educator incorporating evidence-based natural healing protocols and natural medicine for chronic, severe and so-called “terminal” dis-eases. He is also the Chief Science Officer for Real Biologics, a molecular research and development company. After over four decades of research, he recently discovered a specialized molecule he now calls Molecule ‘X’.

### Terms Defined

A molecule is an electrically neutral group of two or more atoms held together by chemical bonds. The term is also applied to polyatomic ions.

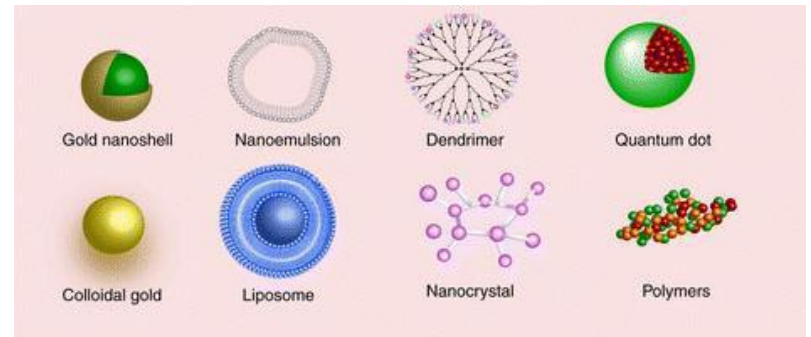

An atom is allegedly the smallest unit of matter that defines a chemical element. Every solid, liquid, gas and plasma is made of neutral or ionized atoms. Protons, neutrons and electrons are components of atoms that give it a positive, negative or neutral electrical charge.

A nano particle is a microscopic particle one dimension less than 100 nanometers. A nanometer is one billionth of a meter. Nano particle research is at the forefront of molecular medicine. An angstrom is a unit of length equal to one ten-billionth of a meter or one tenth (0.1) of a nanometer.

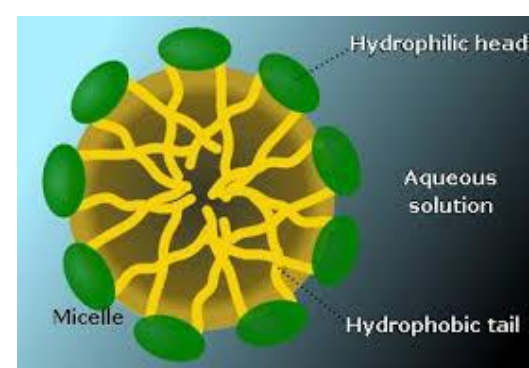

Whole Wellness Club

Molecule ‘X’

In this application, plant based extracts are processed to form a nano-sized particle called a micelle. The micelle’s small particle size (1-4 nanometers) combined with its extremely high surface area to volume ratio enable it to penetrate complex carbon molecules and emulsify organic matter.

Micelles are activated when mixed with sufficient amount of water such that each micelle is then completely surrounded by a thin layer of water molecules.

The outer hydrophilic shell (head) aggressively searches for and bonds with water molecules, making them hyper-mobile. As shown above, the head of the micelle is hydrophilic meaning it likes water, while the interior portion (tail) is hydrophobic, meaning it avoids water. This provides a way to dissolve molecules that do not like water, in water.

Micelles work to breakdown long chain hydrocarbon bonds in fats and oils and hold them in suspension when mixed with water.

Micelle formation is essential for the absorption of fat-soluble vitamins and complicated lipids within the human body. Bile salts formed in the liver and secreted by the gall bladder allow micelles of fatty acids to form. This allows the absorption of complicated lipids (lecithin) and lipid-soluble vitamins (A, D, E, and K) within the micelle by the small intestine.

### Zeta Enhanced Aqueous Solutions

While experimenting on different ways of acquiring better transport methods of carrying specific botanical and nutritional elements through phospholipid cell membranes using zeta or electrical potentiated aqueous solutions, I stumbled upon a specific, plant-based nano-sized micelle molecule. Combining this molecule with electrically charged, ionic, alkaline, distilled water, I unexpectedly discovered heretofore “unseen” phenomena. I discovered an etheric field within the body matrix and more importantly, how one can influence it through intelligent \*imprinting.

Note: \*Imprinting water molecules, in and outside the body, involves Scalar Wave technology or what the late UCLA Professor, Dr. Valerie Hunt coined as “mind energy transference.” It was popularized by the work of Dr. Masaru Emoto and his crystallized water experiments for addressing consciousness and intention as shown in the movie, *What the Bleep Do We Know*. Thoughts and feelings affect our physical reality to include changing waters expression and actual configuration. As vibratory chaos creates dis-harmony leading to dis-ease, it is critically important to drench ourselves in energetic, cellular, vibratory harmony. **Molecule ‘X’ does just that.**

Molecule ‘X’

## Molecule 'X'®

Taking specific pH rated, ionically charged, mineralized, distilled water and adding Molecule 'X' proportionate to the degree of total dissolved solids (TDS), along with non-toxic natural flavors, I have created the first intelligent, imprinted, bio-available water concentrate.

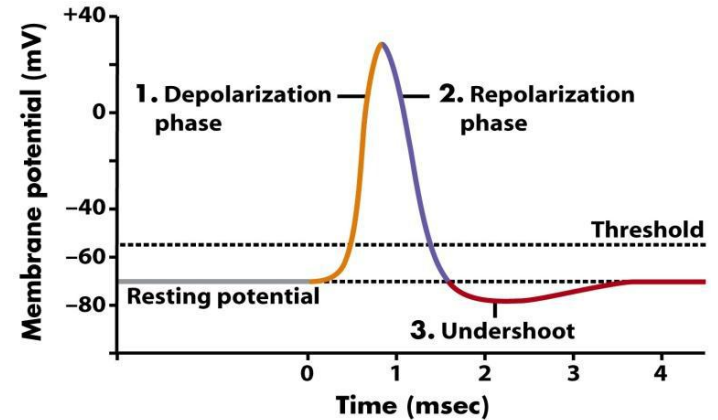

Figure 45-5 Biological Science, 2/e  
© 2005 Pearson Prentice Hall, Inc.

The first formula under the Molecule 'X' brand will be nano-sized and imprinted to address healing and repairing pathways. Future formulas can be infused with specific elements to address any and all health challenges including those facing cardiovascular, respiratory, neuromuscular, joint, eye, pancreas, liver, reproductive and more. With Molecule 'X' infused and imprinted "charged" water, nothing is outside of infinite possibilities.

*After over 44 years of continuous, exhaustive research, I have finally come to a place in my career where I feel I may have discovered one hidden elixir for optimum health and longevity. I know, I have just scratched the surface.*

## Exact Contents of Whole Wellness Club's - Health & Longevity Formula with Molecule 'X'

### 1. Colloidal Silver—Contains .9999% Pure Colloidal Silver in Distilled Water at 20 ppm.

**Colloidal Silver Facts** - Advanced Colloidal Silver is a mineral suspension produced at about 20 ppm of .9999 pure silver in de-ionized water. It is a mineral supplement used to boost and augment the body's immune system. The silver content is comprised of approximately 15-20% ionic silver and 80-85% particle silver. Both ionic silver and non-ionic silver have their own advantages and both are effective in killing single-celled organisms.

#### Colloidal Silver- Mankind's Best Natural Antibiotic

Dr. Chappell's colloidal silver is simply a modern version of mankind's oldest natural antibiotic. According to research by one of the world's largest medical supply companies, Beiersdorf, Inc., "Silver inhibits the growth of bacteria by deactivating the bacteria's oxygen metabolism enzymes. In turn, this destroys the bacteria's cell membranes, stopping the replication of the bacteria's DNA."

#### Silver Kills All One-celled Organisms

Silver also kills all other single-celled organisms and germs on contact. This includes viruses, molds, and fungus. Germs cannot live in the presence of silver, but there is no damage to multi-celled organisms. The anecdotal and eye-witness evidence passed down for thousands of years is overwhelming and undisputable. That which is experienced and witnessed in real life has always carried the most weight in a court in law. It is the fabricated and fraudulent so-called "clinical studies" that are easily manipulated by the pharmaceutical industry who pay for studies to confirm the results they desire.

#### Silver History

From mankind's earliest history, silver has been used in the making of food and drink vessels and eating utensils because of silver's anti-bacterial properties. Silver coins were used to preserve milk before refrigeration was invented. Silver urns and pitchers were used to retard water spoilage by the wealthy and by armies engaging in long military campaigns. Sucking on silver utensils and silver coins has been used to gain immunity against such diseases as the Bubonic Plague. This historical use of silver has progressed to using a more refined and bio-available form of silver in much smaller particles called colloidal silver.

#### Other Uses of Silver

Silver is also being used in swimming pool filters, food cutting boards, bandages, and water filtration systems for NASA. Although mainstream medicine may discount the effectiveness of silver as an alternative to anti-biotics, even they use it where nothing else works. Advanced colloidal silver contains only mineral and distilled water. There are volumes of research and studies proving the effectiveness and safety of silver.

**2. Cretaceous Seaway Minerals w/ Amino Acids—Minerals** - Antimony, Aluminum, Barium, Beryllium, Bismuth, Boron, Bromine, Calcium, Carbon, Cerium, Cesium, Chloride, Chromium, Cobalt, Copper, Dysprosium, Deuterium, Erbium, Europium, Fluorine, Gadolinium, Gallium, Germanium, Gold, Hafnium, Hydrogen, Holmium, Indium, Iodine, Iridium, Iron, Lanthanum, Lead, Lithium, Lutetium, Magnesium, Manganese, Molybdenum, Neodymium, Niacin, Nickel, Niobium, Osmium, Palladium, Phosphorus, Platinum, Potassium, Praseodymium, Rhenium, Rhodium, Rubidium, Ruthenium, Samarium, Selenium, Scandium, Silicon, Silver, Sodium, Strontium, Sulfur, Tantalum, Thallium, Thorium, Tellurium, Terbium, Thulium, Tin, Titanium, Tungsten, Vanadium, Ytterbium, Yttrium, Zinc and Zirconium (74).

**Amino Acids** – Alanine, Glutamic Acid, Glycine, Histidine, Isoleucine, Leucine, Methionine, Phenylalanine, Serine, Threonine, Tryptophan and Valine.

**3. Molecule 'X'** –Almond oil, Cedar oil, Cinnamon oil, Citronella oil, Geranium oil, Jojoba oil, Lemon grass oil, Lilly extract, Mint oil, Peppermint oil, Corn oil, Soybean oil, Sodium coco poly glucoside citrate, Ethyl lactate, Dextronic acid, Gluconic acid, Tall fatty acids, Sugar cane, EDDS, EDTA, Alkanolamines, Alkylpolyglycoside (from sugar), Plant-based microbes, Organic alcohol and Distilled water.

**4. Cinnamon** –Organic Alcohol, Vegetable Glycerin, Organic Cinnamon Oil, and Distilled Water.

**5. Boron** –Distilled Water, Ionic Boron, Citric Acid, Natamycin (natural antifungal & preservative), Nisin (natural antibacterial & preservative), and Fulvic Acid.

**6. Herbs** –Health & Longevity Formula - All Organic Pau d'Arco, Echinacea Augstifolia Root, Summa, Reishi, Maitake, Cordyceps, Cayenne and Astragalus.

**7. Special Water** –Ionic Charged Alkaline Distilled Water Using a Schauburger Vortex, Hunt/Emoto Scalar Wave Imprinting Process and Tuned Crystal Chamber with Added Magnesium and Potassium.
